PROFESSIONAL SUMMARY

As a Software Developer at Willis Towers Watson since 2022, I focus on using my technical ability to deliver impactful solutions. My ability in tools such as GitHub Copilot, Microsoft Azure, and Microsoft SQL Server supports the development and optimization of software projects.

With over four years of experience in software development, I am committed to contributing to innovative technology solutions that meet organizational goals. I aim to continuously advance my technical skills and support a collaborative approach to problem-solving.

HTML	C#	SQL Server
CSS	Python	MongoDB
JavaScript	Azure (App Insights/CosmosDB)	GitHub Copilot
React	Jest/JUnit testing	CI/CD

WORK HISTORY

Willis Towers Watson, 08/2014 – 02/2026

Software Developer (Full Stack), Draper, UT 01/2022- 02/2026

- Created and supported 200+ SQL stored procedures for carrier application and policy reconciliation, reducing manual reconciliation by 80%.
- Migrated 75% of SQL stored procedures to a reconciliation service in a C# codebase, collaborating with Stakeholders to define key acceptance criteria, saving ~35% database resources and improving reconciliation accuracy by 90%.
- Supported internal and external React frontend clients displaying applications and policies of enrolled participants, and internal reconciliation React frontend. Created and updated automated test cases supporting implementation.
- Updated frontend reconciliation website to use reconciliation service output, improving with new alerting and reporting to improve C# reconciliation by 15%.
- Implemented 100% support for Group Medicare Advantage policy display for the internal and external websites. Calling microservice APIs to reconcile opt-in file and carrier status file.

Knowledge Management Specialist, South Jordan, UT 08/2014 - 12/2021

- Product Owner of a team of five, created stories, connected with stakeholders, and completed tasks all within department standards and SLAs.
- Partnered with key departments to update 500+ articles used internally and externally. Managed and updated according to SLA guidelines.

America First Credit Union, 03/2013 - 08/2014

Bank Teller, South Jordan, UT

- Became a level 3 teller in 12 months (6 months above average).
- Consistently in the top three in transactions per hour, along with 90%+ accuracy.
